DETAILED ACTION

Applicants' response, which included amendment to claim 1, filed on 7/5/2006, is made of record.

Claim 1 is pending.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1. In the first line of specification below the title insert:

This application is a 371 of PCT/US03/31988 filed 10/08/2003, which claims benefit of US Provisional Application No. 60/417,569 filed 10/10/2002.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

In view of applicants' amendment to claim 1, the 112 first paragraph scope enablement rejection made in the previous office action has been obviated.

The method of synthesizing various substituted-3-amino—1,2,4-benzotriazine of formula I with specific X1 and X2 substituents as embraced in the instant claim 1 was not found to be anticipated or rendered obvious by the prior art of record. Additional search in the related art area did not yield any prior art disclosing the instant process of making various substituted-3-amino—1,2,4-benzotriazine of formula 1 with specific X1 and X2 substituents embraced in the instant claim. Therefore, the examiner noted that the claim 1 would be in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
